LUIS JORGE, SOFTWARE ENGINEER

9175642595 • Luis.Jorgexl@gmail.com • Bronx, New York • LinkedIn • GitHub

SUMMARY:

Full-stack software engineer with over 8 years of diverse experience in designing, developing, and deploying scalable web and mobile applications. Specialized in Python development, particularly in Diango and Flask frameworks. Proven expertise in backend systems, message-oriented middleware (AMPS, RabbitMQ, ZeroMQ), and data manipulation with Pandas and NumPy. AWS Certified Developer Associate with a deep understanding of cloud-native solutions (AWS, Azure, GCP) and machine learning frameworks like PyTorch and TensorFlow. Passionate about building efficient, secure, and scalable applications in dynamic team environments. Fluent in Spanish and learning Mandarin.

Core Competencies:

- Programming Languages: Python, JavaScript, C, C++, C#, Go, Java, Node.js, React, TypeScript, Arduino native
- Frameworks & Tools: Django, Flask, Pandas, NumPy, TensorFlow, PyTorch, Spring, Hibernate, .NET, Angular,
- Testing Tools: pytest, JUnit, Jest, Mocha, Cypress, Jasmine, Selenium, Playwright
- DevOps & Cloud: Docker, Kubernetes, Jenkins, AWS (CloudFormation, Lambda, S3, RDS), Azure, GCP
- Databases: MySQL, PostgreSQL, MongoDB, Redis, AWS DynamoDB, influxDB, Cassandra, SQL
- Additional Skills: Machine learning (supervised, unsupervised), statistical modeling, APIs, ORM, CI/CD pipelines, Agile methodologies

PROFESSIONAL EXPERIENCE

Hack.Diversity: Connecting Black/Latinx individuals to Tech organizations 2024 Hack. Diversity Fellow for Software Engineering

New York, New York

11/2023 - 08/2024

- Selected for the prestigious Hack. Diversity Fellowship, integrating Boston's innovation, corporate, civic, academic, and philanthropic pillars.
- Led backend development for the MedExams project, ensuring robust and efficient system architecture.
- Awarded highest honor, the Jody Rose award for most embodiment of all core values: "Community, Advocacy, Resilience, Empathy" and Most Valuable Hacker for outstanding contributions and leadership.
- Conference Panelist: Shared insights on "How AI Impacts Hiring" at Hack.Diversity's debut during NY Tech Week. YouTube Video

Cambium Assessment Inc: SaaS company offering secure testing software

Remote

Project Coordinator

- 2022 2023Managed multiple projects across different teams, using Agile methodologies to meet project deadlines and
- client expectations. Streamlined data accuracy across 20+ client states using MySQL and SAS, ensuring compliance with stringent state testing standards.

Helpdesk Analyst

Conducted training sessions for end-users, improving software proficiency and adoption rates. Implemented issue tracking and resolution processes, reducing ticket resolution time by 20%.

EDUCATION

Flatiron School Coding Bootcamp

Expected Graduation October 2024

Focused on full-stack development using modern technologies such as React, TypeScript, and Python to build scalable web applications.

New York City College of Technology

Bachelor of Science in Computer Science Technology

Graduated Dean's Honors List for academic excellence. Applied project management principles to Cisco technologies in coursework and projects.

Certifications & Languages:

- AWS Certified Developer Associate (DVA-C02) "Credly Link to verify"
- Fluent in Spanish, learning Mandarin

PROJECTS

Luegle Maps

Geospatial application built using JavaScript and the Google Places API to locate places listed on Google.

GitHub Repo: https://github.com/LueDev/Luegle

Video Demo: https://www.loom.com/share/178e15c4ea5f435984a40c93ea01105a

Titan Capital Financial

Banking CRUD application built using React, Context API, and Chart.js for data visualization.

GitHub Repo: https://github.com/LueDev/Titan-Financial-Capital

Video Demo: https://www.loom.com/share/10090d68916245ed929e93cb6a997857?sid=e68f47d7-edfc-4d38-ad16-

b48f14d74323

MedExams – Team Lead / Backend Lead

Led backend development of a medical CRUD application using the MERN stack, RabbitMQ, and Redis.

GitHub Repo: https://github.com/LueDev/TechDive
Render Demo: https://medexams.onrender.com/home

Hotel Management System on Terminal

CLI Object Relational Mapper using Python, Sqlite3 DB, and Click library

GitHub Repo: https://github.com/LueDev/Python-CLI-ORM
