EDUCATION

CUNY NYC City College of Technology — Brooklyn, NY
Bachelor of Arts in Computer Science — *Aug. 2013 – June 2018*

Flatiron School for Software Engineering — New York, NY
Certificate of Completion — *Sep 2023 – Oct 2024*

EXPERIENCE

Software Engineering Alumni — Nov 2023 – Aug 2024
Hack.Diversity — *New York, NY*
- 1 of 17 selected for the prestigious Hack.Diversity Fellowship, integrating Boston's innovation, corporate, civic, academic, and philanthropic pillars.
- Developed a full-stack web application, ***Medexams*** to perform create, read, update, and delete operations on patient data using MongoDB, ExpressJS, React, and NodeJS
- Awarded highest honor, the Jody Rose award for most embodiment of all core values: "Community, Advocacy, Resilience, Empathy" and Most Valuable Hacker for outstanding contributions and leadership.
- Conference Panelist: Shared insights on ***"How AI Impacts Hiring"*** at Hack.Diversity's debut during NY Tech Week.

Project Coordinator — July 2022 – Sep. 2023
Cambium Assessment Inc. — *Washington,DC Remote*
- Led multiple high-volume projects from inception to completion using Agile methodologies, ensuring on-time delivery and adherence to financial targets while maintaining data integrity for over 3 million student assessments.
- Performed comprehensive quality assessments with SAS, analyzing datasets of 1.5+ million student records and optimizing performance metrics integration on client websites to provide actionable insights.
- Coordinated daily stand-ups with technical project managers and monthly client meetings, ensuring alignment on deliverables, process improvements, and project updates.
- Strategically managed task delegation and resource allocation to streamline project execution, resulting in accurate and reliable reporting of school performance metrics and safeguarding client data.

Operations Manager — June 2019 – June 2020
Murph Consulting LLC. — *New York, NY*
- Led a team of 8 IT technicians, managing IT infrastructure for over 300 clients using Agile principles to streamline system upgrades, installations, and server monitoring, ensuring high operational efficiency and client satisfaction.
- Facilitated clear communication with clients, applying Agile methodologies to define project scope, budgets, and timelines, while providing regular progress updates to ensure transparency and on-time project delivery.
- Leveraged vendor relationships and negotiated favorable agreements for equipment and software, optimizing cost efficiency, and used Scrum-based sprints to address Help Desk escalations for rapid issue resolution.

PROJECTS

Luegle Maps | *Google Cloud API, HTML, CSS, JS, ExpressJS* — Nov. 2023 – Dec 2023
- Developed a full-stack web application to provide autocomplete functionality and create map markers, with an overlay displaying NYC community districts.

Titan Capital Financial | *React, ExpressJS, ChartJS, Sqlite3* — Dec 2023 – Jan 2024
- Developed a full-stack banking application with functionalities for withdrawing and depositing funds, as well as visualizing data through graphs..
